

THE LATEST UPDATES ON HYDROGEN IN GREECE

GREECE on the European IPCEI Hydrogen Map

28	Austria
24	Belgium
7	Czechia
4	Luxembourg
13	Denmark
11	Estonia
20	France
13	Finland
20	Greece
62	Germany
52	Italy
56	Netherlands
33	Portugal
20	Norway
9	Poland
18	Sweden
16	Slovak Republic
33	Spain
439	total

- 20 Greek proposals evaluated for the first IPCEI wave

The first 5 Greek
Hydrogen
projects in the
first IPCEI wave
pipeline

IMPORTANT PROJECTS OF COMMON EUROPEAN INTEREST “HYDROGEN TECHNOLOGIES AND SYSTEMS” 1ST WAVE

“Decarbonization through H2” Subwave

- 1) BLUE MED (MOTOR OIL, PPC)
- 2) H2CEM TITAN (TITAN)

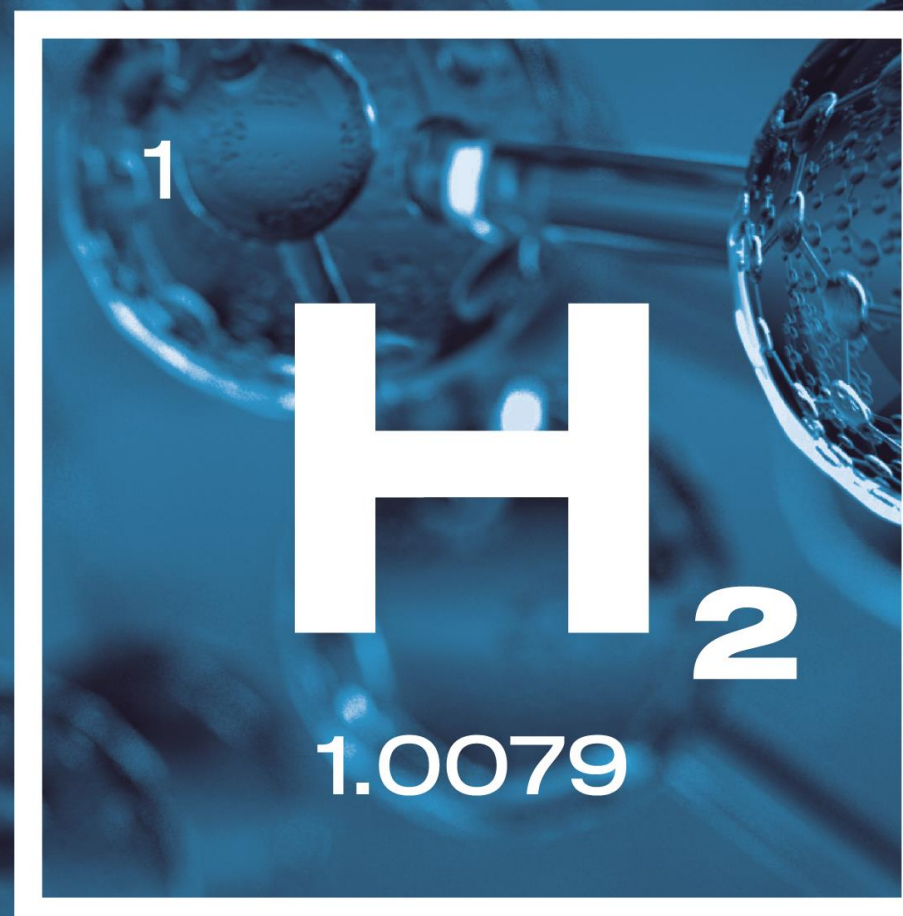

“H2 Technology (key components)” Subwave

- 1) WHITE DRAGON (CONSORTIUM OF ALL MAJORS)
- 2) GREEN HIPO (ADVENT TECHNOLOGIES)
- 3) H2CAT TANKS (B&T COMPOSITES)

2nd WAVE: Loading...

OUR NATIONAL HYDROGEN STRATEGY EXPLORES:

- 1) The adaptation of various Hydrogen Systems and Technologies
- 2) Carbon Neutrality scenarios from 2030 until 2050
- 3) The gradual development of a competitive hydrogen market that touches the upstream, midstream and downstream sectors and expands to several sectors of the Greek economy with added value analysis
- 4) A special roadmap with targeted flagship demonstration projects that will serve as a signal provider to investors and that will provide added value and jobs creation to local economies
- 5) The development of the necessary regulatory and legal framework
- 6) An innovation-enabling scheme that will aim to connect research directly with the market to incubate and accelerate hydrogen start-ups and spinoffs.
- 7) Roadmap with quantified targets and Policy Measures

 **HELLENIC
HYDROGEN
STRATEGY**
